BL20 DIAMOND CORE DRILL

- Nominal power: 2200 W
- Drilling diamete: 16 - 200 mm
- Number of gear: 4
- Wet drilling machine

Brushless core drill, 4 speeds for a wide drilling range, compact and lightweight, with start drilling mode, LEDs for status and load display, coupling with mobile devices possible, with oil bath lubrication, overload clutch and kickback stop.

Technical Data

		BL20
Nominal power	W	2200
Output power	W	1700
Nominal speed	1/min	580/1020/1640/2870
Total length	mm	393
Weight	kg	5,8
Drilling diameter approx.		
rig operated (concrete)	mm	16-182
hand held (concrete)	mm	16-100
hand held (masonry)	mm	16-200
Tool fixture		1 ¼“ + G ½“
Clamping neck diameter	mm	60
Suitable drill rig		KS18

Advantages

- Extremely powerful, brushless motor
- 4 speeds for a wide drilling range
- Completely enclosed motor to protect against moisture and dirt
- Compact design for use in confined areas
- Lightweight, ergonomic and modern design
- Drilling with reduced speed
- LEDs for status and load indication
- Connectivity via Bluetooth for coupling with mobile devices
- New additional handle with vibration damping
- Leveling aid thanks to three integrated spirit levels
- Supplied with tool set in a practical carrying case
- Significantly reduced risk of injury thanks to kickback stop. The active safety feature detects dangerous, uncontrolled twisting of the machine and stops the motor immediately.

Application examples

- Hand-guided wet drilling of concrete, masonry and rock
- Particularly suitable for drilling in confined areas
- Penetrations for cables, routes and pipes
- Perforation drillings for feed-throughs in the sanitary and heating sector
- Ventilation and air vents

Accessories

AS12	Drilling spike: Centering point for easy spot drilling, for drill bit lengths up to 480 mm
WR10	Water collecting ring: Drill guide with water collection ring
